RAJESH

Cloud Analyst | M365 | Cloud Infrastructure & Incident Support | Microsoft 365 Administration

Delhi, India • rk2998858@gmail.com • +91 8447559286 • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Cloud Analyst supporting Azure infrastructure, networking, and Microsoft 365 environments for international clients — acting as primary point of contact for incidents and service requests, troubleshooting platform issues, and driving timely resolution within SLA. Experienced across Azure core services (VMs, VNets, NSGs, monitoring, backup/recovery) and real-time data pipeline access, with a collaborative, documentation-driven approach and an AZ-900 / OCI Foundations certified background.

PROFESSIONAL EXPERIENCE

Cloud Analyst *Nov 2025 – Present*

AW Infrasec Solutions Pvt. Ltd. · Gurugram, India

- **Primary point of contact:** Act as the first point of contact for international clients on Microsoft 365 and Azure-related incidents, service requests, and technical issues, resolving tickets via Zoho Desk within SLA.
- **Azure infrastructure & monitoring:** Manage Azure VMs, VNets, subnets, NSGs, and Storage accounts; proactively monitor infrastructure health using Azure Monitor and Workbooks, troubleshooting connectivity and platform issues.
- **Microsoft 365 administration:** Administer Exchange Online, SharePoint, OneDrive, and user license assignments; own IAM via Microsoft Entra ID (provisioning, role assignments, access reviews), Intune device enrollment and compliance policies, Defender security alerts, and Purview data governance.
- **Infrastructure automation:** Write Python and Bash scripts to provision Azure VMs end-to-end — deployment, client connectivity setup, subnet and NSG rule/priority configuration, and SQL-based storage provisioning.
- **Troubleshooting:** Diagnose and resolve cloud networking and platform-level issues — DNS, VPN, sign-in, and email sync — across end-user and infrastructure environments using structured troubleshooting techniques.
- **Backup & recovery:** Monitor and maintain Acronis Cyber Protect backups, configure backup policies and retention schedules, and execute data recovery for client environments.
- **Real-time data pipelines:** Managed and supported real-time data pipelines and workspace access across Azure Event Hub, Data Factory, ADLS, and Synapse Analytics with Medallion Architecture, Key Vault managed secrets, and SQL-based analytics.
- **Documentation & continuous improvement:** Use AI copilots and agent-based tools to speed up ticket triage and summarize recurring issues; built an internal automation tool that reduced manual effort for the L1 team.

Python Developer Intern *May 2025 – Jul 2025*

Shadow Fax Technologies

- Built scripts and REST APIs using Python and Flask for backend logic and JSON-based data processing.
- Developed an internal automation/reporting tool that streamlined recurring data workflows and reduced manual reporting effort.
- Collaborated in agile teams, contributing to sprint planning and code reviews.

PROJECTS

- **Google Workspace → Microsoft 365 Migration (Mailbox & OneDrive) · 2025:** Led end-to-end migration of international client mailboxes and OneDrive data from Google Workspace to Microsoft 365 with minimal downtime.
- **Hybrid Azure AD to Microsoft Entra Join Migration · 2025:** Migrated international client devices from Hybrid Azure AD Join to Microsoft Entra Join using the Opsole Migration Tool; ran pre-migration validation, execution, troubleshooting, and post-migration verification.
- **Containerized Full-Stack App on Azure (ACI, ACR, CLI) · 2025:** Deployed a full-stack app using Docker, ACR, and ACI; built and hosted the frontend as static pages on GitHub Pages, created Docker images for containerized deployment, and resolved image access/port issues and configured DNS for public access.

TECHNICAL SKILLS

Azure & Cloud Infrastructure: VMs, VNets, NSGs, Storage Accounts, Azure Application Gateway, Azure Traffic Manager, Azure Front Door, Azure Monitor & Workbooks, Cloud Networking (DNS, VPN), Azure (primary), AWS, GCP

Identity & Security: Microsoft Entra ID, IAM, Conditional Access, Key Vault, Defender (AI threat detection)

Microsoft 365: Exchange Online, SharePoint, OneDrive, Purview, Intune (endpoint & device management), Defender, Entra ID, license management

Data & Pipelines: Azure Event Hub, Data Factory, ADLS, Synapse Analytics, Medallion Architecture, SQL, Tableau, Excel

Backup & Recovery: Acronis Cyber Protect, Disaster Recovery

Infra & Containers: Terraform, Docker, Git

Scripting & AI Tools: Python and Bash scripting for VM provisioning, subnet/NSG rule configuration, and SQL storage setup; AI copilots and agent-based tools for triage & scripting

Support Tools: Zoho Desk (L1 ticketing, SLA-driven), AnyDesk, UltraViewer

CERTIFICATIONS

Microsoft Certified: Azure Administrator (AZ-104) — In Progress • Microsoft Certified: Azure Fundamentals (AZ-900) — Microsoft, 2025 • Oracle Cloud Infrastructure Foundations Certified Associate — Oracle, 2025

EDUCATION

B.Sc. in Computer Science — Delhi University 2023 – 2026

Coursework: Python, Data Structures, OS, Networking, Cloud Computing, Databases
